

**1-OFF™**

## **FREQUENTLY ASKED QUESTIONS**

### **1. What is 1-OFF™?**

1-OFF™ is a new CASH 3™ play type that offers players the chance to miss their lucky numbers by 1 and still win a cash prize! With 26 additional number combinations, the new play type gives players the chance to win up to \$250 for a *Straight* win, or up to \$10 for a for matching the winning CASH 3 numbers with one of their 26 possible 1-OFF number combinations.

### **2. How do you play 1-OFF?**

Playing CASH 3 1-OFF is easy. On the CASH 3 play slip, players should select the amount they want to play: \$.50 or \$1; mark the **1-OFF box**; select the draw time: midday, evening or both; and choose one number, from 0 through 9, from each column for a total of three digits, or mark the "QP" (Quick Pick) box to let the terminal randomly pick some or all of their numbers.

### **3. Are the 26 additional number combinations printed on the CASH 3 1-OFF ticket?**

Yes. The CASH 3 1-OFF ticket will print with the three-digit number selected by the player and the 26 1-OFF number combinations that represent all the possible three-digit numbers that are off by one from any or all of the player's number.

### **4. How do you win 1-OFF?**

If the player's three-digit number is a *Straight* match to the winning CASH 3 numbers, meaning the player's numbers are in the exact order in which the winning numbers were drawn, the player wins \$250 for a \$1 play or \$125 for a \$.50. Or, if one of the player's 26 1-OFF number combinations matches the CASH 3 winning numbers, again in the same order drawn, the player wins \$10 for a \$1 play or \$5 for a \$.50 play.

### **5. How much does 1-OFF cost to play?**

Players can choose to play 1-OFF for \$.50 or \$1, just like other CASH 3 play types. The cost of the ticket will vary depending on the number of draws played (midday, evening or both) and the number of days selected.

### **6. Do players get 26 more chances to win the top prize?**

No. Players get 26 more chances to win the 1-OFF prize – \$10 for a \$1 play or \$5 for a \$.50 play.

**7. If you select a CASH 3 number with like digits (e.g., 7-7-7 or 2-2-1) will there be fewer possible 1-OFF combinations?**

No. Regardless of the CASH 3 numbers selected, there are always 26 possible 1-OFF combinations. Unlike Box or Combo, when you play 1-OFF a CASH 3 number with like digits does not change the odds of winning or the prize amount.

**8. Can you play 1-OFF with any CASH 3 play type including Front Pair or Back Pair?**

No. 1-OFF is not an add-on feature; it is a new play type that plays similar to Straight/Box. Now, players have another way to play CASH 3 or they may continue to play any of the other CASH 3 play types.

**9. Does 1-OFF play like EZmatch™, do you match the 1-OFF numbers with your CASH 3 number to win instantly?**

No. 1-OFF is not an instant win. Players win a 1-OFF prize by matching one of their 26 number combinations with the winning CASH 3 numbers, drawn in exact order for the applicable drawing. The 1-OFF numbers are all the 26 possible combinations that are off by one, in the order drawn, from any or all of the player's number; therefore, the 1-OFF numbers and the player's numbers will never match.

**10. Why should I play 1-OFF if I can only win half the prize of a Straight play?**

With Straight play, players get one shot at winning \$500 for a \$1 play. With 1-OFF, they get a chance to win \$250 and 26 more chances to win \$10 for a \$1 play. The odds of winning 1-OFF are the best of any CASH 3 play type available! Players may continue to play Straight for a chance to win \$500; but, for the same cost, 1-OFF offers players an additional 26 set of numbers increasing the players' chances to win a cash prize.

**11. Do the old CASH 3 play slips still work?**

Yes. The old CASH 3 play slips still work on the terminal for players who are not playing 1-OFF; however, new play slips are necessary to play the new play type.

**12. Can I play the same play styles, as I always have for CASH 3?**

Yes. Players may continue to play all of their favorite play styles – Straight, Box, Straight/Box, Pair, Combo, Front Pair, Back Pair – and, now, 1-OFF for both the midday and evening draws.
